INTRODUCTORY SECTION

MARY ANNE HODEL Library Director/Chief Executive Officer

December 30, 2011

To the Library Board of Trustees and Residents of the Orange County Library District:

The Comprehensive Annual Financial Report (CAFR) of the Orange County Library District (District) for the fiscal year ended September 30, 2011 is hereby submitted.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management of the District. To the best of our knowledge and belief, the information presented herein is accurate in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The CAFR is presented in four sections:

- Introductory Includes this transmittal letter, the District's organizational chart, a list of principal officials, and the prior year's Certificate of Achievement for Excellence in Financial Reporting.
- Financial Includes the independent auditors' report, management's discussion and analysis, the basic financial statements, required supplementary information, and other supplementary information.
- Statistical Contains selected financial and demographic information, generally presented on a multi-year basis.
- Compliance Contains schedules and reports required by state and federal regulations.

State statute, augmented by the Rules of the Florida Auditor General, requires that the District's financial statements be published within one year of fiscal year end, presented in conformance with generally accepted accounting principles (GAAP) as applicable to governmental entities, and audited in accordance with generally accepted auditing standards by licensed independent certified public accountants. This report serves to fulfill these requirements.

Management of the District is responsible for establishing and maintaining an internal control framework that is designed to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. As a recipient of federal and state financial assistance, the District is also responsible for establishing adequate internal controls to ensure compliance with applicable laws and regulations related to those

programs. The District's internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits require estimates and judgments by management. We believe the District's internal controls adequately safeguard assets, provide reasonable assurance of properly recorded financial transactions, and provide reasonable assurance that applicable laws and regulations relating to federal and state financial assistance are being followed.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

District Profile

The District was established by a special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980 as an independent special taxing district, to provide library services for Orange County, Florida (exclusive of the Cities of Winter Park and Maitland). The original act, as amended, was recodified into Chapter 99-486, Laws of Florida.

The District's Governing Board is comprised of the Board of County Commissioners of Orange County and one member appointed by the City Council of the City of Orlando, Florida. The powers of the Governing Board are primarily limited to levying taxes, issuing long-term debt, appointing members of the Board of Trustees, and exercising powers of eminent domain. The five-member Library Board of Trustees is responsible for managing, administering, and operating all library facilities and services of the District. Library services are provided to approximately 1,102,000 residents through a 290,000 square foot Main Library building and 14 branch facilities, which range in size from 5,600 to 15,600 square feet.

The District adopts annual budgets for all governmental funds on a modified accrual basis. Budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. Budget-to-actual comparisons are provided in this report for each governmental fund.

Economic Condition

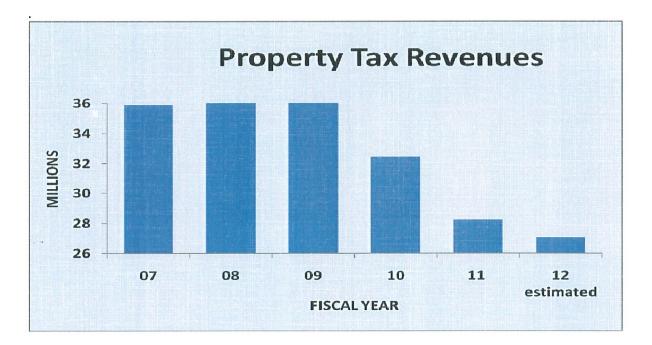

Information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local economy. The local economy is primarily driven by the tourism and travel industry. Major employers include the Walt Disney World Co., Orange County Public Schools, Florida Hospital, Greater Orlando Aviation Authority, Orlando Health, Lockheed Martin Corp. and Universal Orlando. The two largest property tax payers of the District are the Walt Disney World Company and Universal Orlando.

Property taxes. The District is primarily funded through property tax revenues. In June 2007, the Florida Legislature passed legislation, which resulted in a 13% reduction in the District's millage rate for fiscal year 2008. The District's millage rate dropped from .4325 for fiscal 2007 to .3748 for fiscal 2008, and remained at .3748 for fiscal years 2009, 2010 and 2011. Despite the reduction in the District's millage rate, property tax revenues for fiscal year 2008 remained stable due to significant new construction added to the tax rolls.

The Florida Legislature approved further tax reform proposals which were approved by the voters on January 29, 2008. The net effect of this second wave of property tax reform was to remove 6 billion of property tax value from the District's tax rolls. However, due to new construction in the District, property tax revenues for fiscal year 2009 again remained stable.

While the District's property tax revenues have remained stable from fiscal year 2007 through 2009, the recent recession and bursting of the housing bubble have had a dramatic effect on the property tax revenues of most local governments in Central Florida, including the District. As illustrated in the chart below, the District's property tax revenues dropped \$8,100,000 or 22%, from fiscal year 2009 to 2011. Due to continuing problems in the housing market, the District is projecting an additional 3% drop in property tax revenues for fiscal year 2012.

To accommodate the loss of tax revenues, the District needed to reduce spending. While budget reductions were made across the board, much of the needed savings were achieved through lower salaries due to fewer full time positions and lower associated benefit costs. No District employees were laid off. Rather, staff reductions were achieved through normal attrition.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Orange County Library District for its comprehensive annual financial report for the fiscal year ended September 30, 2010. This was the eighth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

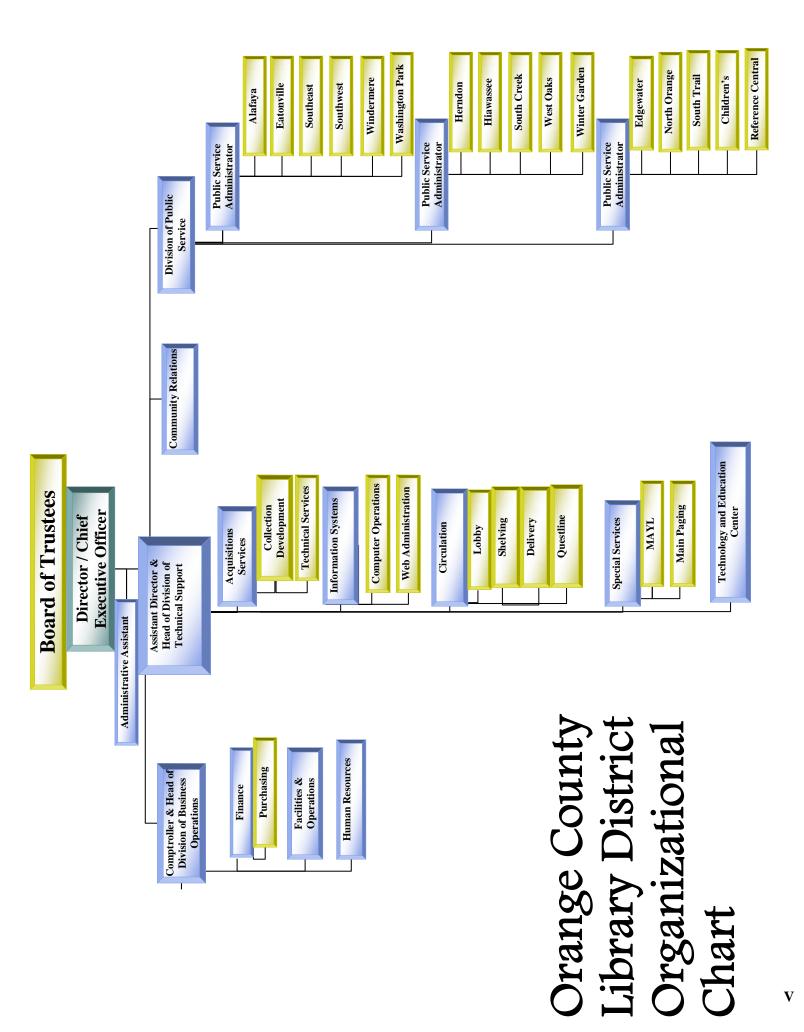

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the Finance Department staff. We would also like to extend our appreciation to the Library Board of Trustees for their considerable contributions and support. Finally, we would like to thank the accounting firm of Cherry, Bekaert, & Holland, L.L.P. for helping to bring this report together.

Sincerely.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Orange County Library District Florida

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended September 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Linda C. Sandson President

Executive Director

FINANCIAL SECTION

Report of Independent Auditors

Orange County Library Board of Trustees Orange County Library District Orlando, Florida

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Orange County Library District (the "District"), a component unit of Orange County, Florida, as of and for the year ended September 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. We also have audited the financial statements of the internal service fund, presented in the District's basic financial statements, and each of the fiduciary funds of the District, presented as other supplementary information in the accompanying combining financial statements, as of and for the year ended September 30, 2011. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of September 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly in all material respects, the respective financial position of the internal service fund and each fiduciary fund of the District as of September 30, 2011 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the District adopted Statement of Governmental Accounting Standards No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, for the year ended September 30, 2011.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 29, 2011 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and required supplementary information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements and the financial statements of the internal service fund and each of the District's fiduciary funds. The introductory section, the schedules presented as other supplementary information, the statistical section and the schedule of state financial assistance listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of state financial assistance and the schedules included as other supplementary information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the procedures applied to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Chang. Behaert & Hollow, L.L.P.

Orlando, Florida December 29, 2011

Management's Discussion and Analysis

The following discussion and analysis of the Orange County Library District's (the "District") financial statements provides an overview of the District's financial activities for the fiscal year ended September 30, 2011. This analysis is designed to assist the reader of the financial statements in focusing on the significant financial issues and activities and to identify any significant changes in financial position. The information presented here should be considered in conjunction with the financial statements taken as a whole.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which are comprised of the following three components.

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances taken as a whole, in a manner similar to a business.

The statement of governmental net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Assets and liabilities are reported in this statement based on the accrual method of accounting, which is used by most businesses.

The *statement of governmental activities* presents information showing how the District's net assets changed during the year. This statement includes all of the District's revenues and expenses, regardless of when the cash is received or paid.

The government-wide financial statements are located on pages 12 - 13 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other local governments, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for the same library activities reported in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows in and out of the funds and the balances left at year-end that are available for spending. These funds are reported based on the modified accrual method of accounting, which measures cash and all other financial assets that can readily be

converted to cash. Governmental fund statements provide a short-term view of the District's financial operations.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it may be useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. Both the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison.

The District's governmental funds consist of the General Fund, Branch Debt Service Fund, Capital Projects Fund, and Capital Projects Sinking Fund, all of which are reported as major funds. Information is presented separately in the governmental balance sheet and statement of revenues, expenditures, and changes in fund balances for each of these funds. The governmental fund financial statements can be found on pages 14 - 16 of this report.

The District adopts an annual budget for each of its governmental funds. Budgetary comparison schedules are located on page 43 for the General Fund and on pages 48 - 50 for the other funds.

Proprietary funds. The District maintains one type of proprietary fund. An *internal* service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its Internal Service Fund to account for its self insured health coverage provided to employees and retirees. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements. The basic Internal Service Fund financial statements can be found on pages 17 - 19.

Fiduciary funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the District. The District is the fiduciary for the Defined Benefit, Defined Contribution, and Money Purchase Pension Plans as well as the Other Postemployment Benefit Plan. The combined activities for these plans are reported in the Statement of Fiduciary Net Assets – Pension and Other Postemployment Benefit Trust Funds, and Statement of Changes in Fiduciary Net Assets – Pension and Other Postemployment Benefit Trust Funds on pages 20 - 21 of this report. Combining financial statements for the plans can be found on pages 46 - 47. The financial activities for these plans are excluded from the District's government-wide financial statements because the District cannot use the assets to finance its operations.

Notes to the financial statements

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22 - 42 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which can be found on pages 43 - 45 of this report.

Government-wide Financial Analysis

The following summarizes the District's net assets at September 30, 2011 and 2010.

	2011	2010
Current and other assets	\$24,308,471	\$23,192,219
Capital assets	27,978,659	29,547,695
Total assets	52,287,130	52,739,914
Current liabilities	1,390,501	1,559,580
Long term liabilities	548,157	614,879
Total liabilities	1,938,658	2,174,459
Net assets:		
Invested in capital assets, (no related debt)	27,978,659	29,547,695
Restricted	157,517	157,517
Unrestricted	22,212,296	20,860,243
Total net assets	\$50,348,472	\$50,565,455

As noted earlier, net assets may serve over time as a useful indicator of the District's financial position. During the year ended September 30, 2011, the District decreased its net assets through operating results by a minimal amount, \$216,983, and assets exceeded liabilities by \$50,348,472 as of the end of the fiscal year.

By far the largest portion of the District's net assets is its investment in capital assets (land, buildings, improvements, furniture and equipment, computer equipment, and construction in progress). The District uses capital assets to provide library services. Consequently, these assets are not available for future spending. The District does not have any debt associated with its capital assets.

A second category of net assets is referred to as restricted since the resources are subject to external restrictions on how they can be used. This category consists of funds donated to the District, which can only be used for specified purposes.

The last category, unrestricted, may be used to meet the District's ongoing obligations to citizens and creditors.

The following summarizes the District's governmental activities for the years ended September 30, 2011 and 2010.

	2011	2010
Program Revenues		
Charges for services	\$1,921,219	\$1,927,773
Operating grants and contributions	1,299,721	1,205,780
General Revenues		
Property taxes	28,223,502	32,417,864
Investment income	38,982	90,929
Miscellaneous	241,465	284,604
Total revenues	31,724,889	35,926,950
Expenses		
Salaries and benefits	18,137,533	19,985,436
Operating	7,456,834	8,003,829
Materials	4,458,761	4,790,414
Depreciation	1,888,744	1,905,805
Interest	-	2,197
Total expenses	31,941,872	34,687,681
Changes in net assets	(216,983)	1,239,269
Net assets - beginning of year	50,565,455	49,326,186
Net assets - end of year	\$50,348,472	\$50,565,455

• Property taxes were down \$4,194,362 due to a 13% decline in property values.

o Investment income was down \$51,947 due to significantly lower interest rates.

 Salaries and benefits decreased \$1,847,903 primarily due to reductions in staffing levels associated with normal attrition. Given the reality of lower property tax revenues, the District needed to lower costs. While no District employees were laid off, one solution implemented for lowering costs was to reduce staffing levels through normal attrition.

 Operating Expenses and Materials both decreased, \$546,995 and \$331,653, respectively, as part of the need to lower costs associated with lower property tax revenues.

Fund Financial Analysis

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The District's governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is used to account for all revenues and expenditures applicable to the general operations of the District, which are not required to be accounted for in another fund. Unassigned fund balance increased from \$8,081,586 to \$8,738,773, largely due to a reduction in spending to conserve cash reserves for future years.

The \$9,602 decrease in the Branch Debt Service Fund was due to the transfer to the General Fund of the residual balances after the debt was paid off completely in October 2009.

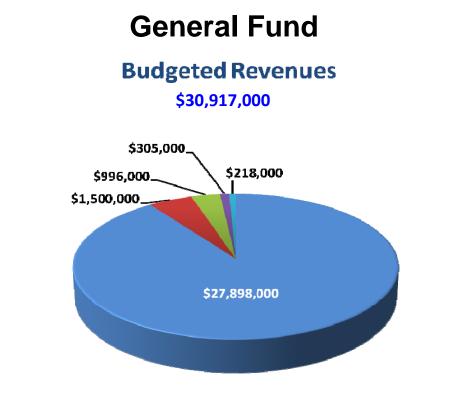

The \$8,015 increase in the Capital Projects Fund balance during the year was due to investment income. The entire fund balance of \$5,971,754 is assigned for capital projects.

The Capital Projects Sinking Fund was established to accumulate resources for future building improvements and major technology purchases. Fund balance increased by \$656 during the year due to investment income. The entire fund balance is assigned for capital projects.

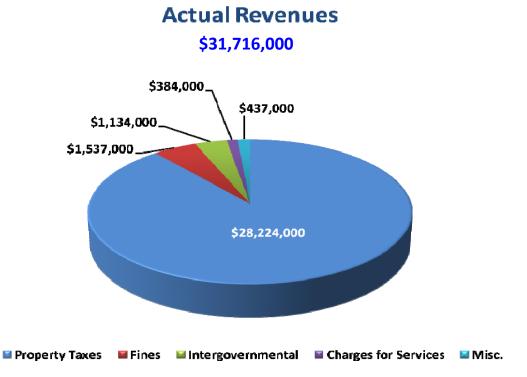

General Fund Budgetary Highlights

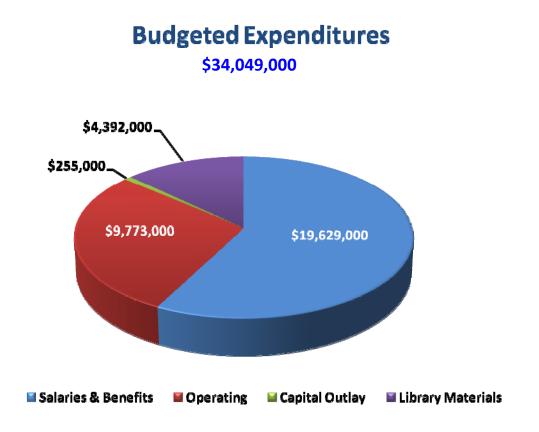

The District adopted a budget for its General Fund (see page 43) prior to the start of its fiscal year and did not amend it. Accordingly, the original and final budgets are the same.

The following charts show the budget versus actual for revenues and expenditures.

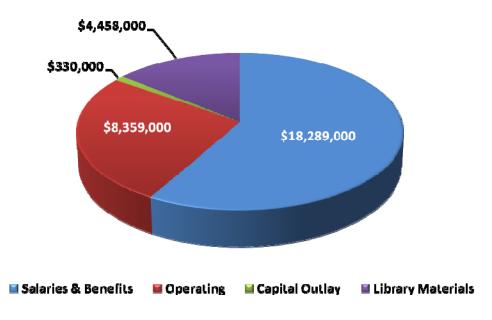

🖬 Property Taxes 📲 Fines 🔛 Intergovernmental 🔛 Charges for Services 🔛 Misc.

The following summarizes significant variations between the amounts budgeted and the actual amounts for the General Fund.

Property Taxes – Due to discounts offered for early payment, the District budgets 95% of the taxes levied but received a slightly higher percentage.

State Aid to Libraries – The District budgets the amount of State Aid received in the prior year. Actual revenue received in the current fiscal year was slightly higher, \$67,196 more.

Federal Grants – A \$75,000 federal grant that was awarded and received during the year was not included in the annual budget.

Other Fees – This category reflects a \$71,293 increase compared to the budget primarily as a result of reclassifying a fee for replacing library cards that was budgeted as Other Income.

Investment Income – As a result of lower interest rates, actual revenues were lower than budgeted.

Other – Universal Service Support payments in the amount of \$208,946 and \$62,825 in private grants and awards were received but were not reflected in the budget.

Due to the deteriorating economy and more specifically, declining property values, the District made deliberate efforts to reduce spending across the board. As positions were vacated due to normal attrition, many of these positions were not filled, which was the main reason that salaries and benefits were under budget by \$1,340,995. The District reduced its operating expenditures in a variety of ways which yielded an additional savings of \$1,414,048 compared to the budget.

Capital Assets

The District's capital assets, net of accumulated depreciation, consist of the following at September 30, 2011 and 2010.

	2011	2010
Land	\$ 3,349,802	\$ 3,349,802
Buildings	16,406,351	17,112,984
Improvements	6,450,059	6,849,487
Furniture and equipment	1,246,625	1,451,380
Computer equipment	435,441	467,840
Construction in Progress	90,381	316,202
Total Capital Assets	\$27,978,659	\$29,547,695

Due to lower property tax revenues, capital asset purchases were kept to a minimum and included the following:

- Completed installation of security and camera systems in all branch locations at a cost of \$249,393
- Upgraded integrated library system hardware at a cost of \$74,750
- Purchased computer equipment and software at a cost of \$132,600

Additional information on the District's capital assets can be found on page 31 of this report.

Long Term Debt

The District's long-term debt consists of the following at September 30, 2011 and 2010.

	2011	2010
Accrued Compensated Absences	\$1,270,475	1,251,918
Net Pension Obligation	66,212	235,716
Total Long Term Debt	\$1,336,687	\$1,487,634

Additional information on the District's long term debt can be found on page 32 of this report.

Requests for Financial Information

This report is designed to provide a general overview of the District's finances and to show accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be directed to:

ORANGE COUNTY LIBRARY DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Governmental Activities Year Ended September 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 623,806
Governmental funds report all capital outlays as expenditures. However, in the statement of governmental activities the cost of capital outlay, other than Library books and other materials, is allocated over estimated useful lives and reported as depreciation expense. This is the amount of capital outlay not reported as materials expense on the statement of governmental activities.	329,553
In the statement of activities, a gain or loss on the disposition of capital assets is reported, whereas in the governmental funds, the proceeds received from disposition of capital assets increases financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of capital assets disposed of.	(9,845)
Depreciation of capital assets, not reported in governmental funds.	(1,888,744)
Some expenses reported in the statement of governmental activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds, as follows: Decrease in net pension obligation Increase in accrued compensated absences	169,504 (18,557)
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.	 577,300
Change in net assets of governmental activities	\$ (216,983)

Note 1 - Summary of significant accounting policies

Reporting entity

The Orange County Library District (the "District") was established by a special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980 as an independent special taxing district, to provide library services for Orange County, Florida (exclusive of the Cities of Winter Park and Maitland). The original act, as amended, was recodified into Chapter 99-486, Laws of Florida.

The District's Governing Board is comprised of the Board of County Commissioners of Orange County, Florida and one member appointed by the City Council of the City of Orlando, Florida. For this reason, the District's financial statements are presented as a blended component unit of Orange County, Florida. A five member Board of Trustees (the "Board") is appointed by the Governing Board to manage, administer and operate all library facilities and services of the District.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of governmental net assets and the statement of governmental activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements.

The statement of governmental activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods or services provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and pension and other postemployment benefit trust funds, even though the trust funds are excluded from the government-wide financial statements. All of the District's individual governmental funds are reported as major and are presented as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the internal service and pension and other postemployment benefit trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Note 1 - Summary of significant accounting policies (continued)

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The Internal Service Fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from claims activities, whereas non-operating items consist of investing activities.

Governmental Funds - The District reports the following governmental funds, all of which are major funds:

<u>General Fund</u> is used to account for all revenues and expenditures applicable to the general operations of the District, except those required to be accounted for in another fund.

<u>Branch Debt Service Fund</u> accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the Bank Revenue Line of Credit Note, Series 2003, Draw 1. Non-ad valorem tax revenues serve as the funding source for payments.

<u>Capital Projects Fund</u> is used to account for resources designated to construct or acquire capital assets and major improvements.

<u>Capital Projects Sinking Fund</u> is used to accumulate resources for the future construction or acquisition of capital assets and major improvements.

Proprietary Funds - The District reports the Internal Service Fund to account for health self insurance activities.

Fiduciary Funds - The District reports pension and other postemployment benefit trust funds to account for the activities of the Defined Benefit, Defined Contribution, and Money Purchase Pension Plans and the Other Postemployment Benefit Plan.

Budgetary requirements

Expenditures are controlled by appropriations in accordance with budgetary requirements set forth in the Florida Statutes. The budgeted revenues and expenditures in the accompanying financial statements reflect all amendments approved by the Board of Trustees.

Budgets for the governmental fund types are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets are not adopted for the internal service, pension, and other postemployment benefit trust funds. Expenditures cannot exceed appropriations by fund level. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

Note 1 - Summary of significant accounting policies (continued)

Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits, certificates of deposit with an original maturity date of 90 days or less, and money market accounts. Investments in external pools, including Florida Prime and Florida Safe, are considered investments.

Investments

Investments are stated at fair value. Investment income includes all realized and unrealized gains and losses. Interest and dividend income is recognized on the accrual basis.

Inventory and prepaid items

Inventory is stated at cost on the basis of the "first-in", "first-out" method of accounting. The effect of this method is to flow costs through operations in the order in which the items were purchased. Inventory and prepaid costs are recorded as expenditure at the time individual items are consumed (consumption method).

Capital assets

Capital assets consist of facilities and equipment used in the District's operations and are recorded as expenditures in the General Fund, Capital Projects Fund, or Capital Projects Sinking Fund at the time goods are received and a liability is incurred. Capital assets are defined by the District as assets with an initial, individual cost of at least \$1,000 and an estimated useful life in excess of two years. These assets are capitalized at historical cost in the government-wide financial statements and are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements	15
Furniture and equipment	10
Computer equipment	4

Accumulated depreciation is recorded from the date each asset was placed in service. The District's sole function is to provide library service. As a result, depreciation expense on capital assets is deemed to be a direct expense and is not subject to allocation. Donated assets are recorded as capital assets at estimated fair market value upon the date of donation.

Library books and materials

Library books and materials are recorded as expenditures when purchased and are not capitalized as assets of the District.

Pending Trades

Pending trade receivables (Due from Brokers) and obligations (Due to Brokers) in the Statement of Fiduciary Net Assets-Pension and Other Postemployment Benefit Trust Funds, represent investment sales and purchases made with trade dates at fiscal year end and settlement dates after the fiscal year end.

Note 1 - Summary of significant accounting policies (continued)

Compensated absences

It is the policy of the District to permit employees to accumulate earned but unused leave benefits, a limited amount of which will be paid to employees upon separation from service. Unpaid compensated absences are recorded as a liability when the benefits are earned in the government-wide financial statements. For governmental funds, there is no legal requirement to accumulate expendable available financial resources to liquidate the obligation; thus expenditures are recognized in the governmental funds when payments are made to employees.

Long-term debt

In accordance with accounting principles generally accepted in the United States of America, longterm liabilities are not recognized in the Governmental Fund financial statements. They are instead reported as liabilities in the government-wide financial statements.

Net Assets

Net assets in government-wide financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are externally imposed by outside parties and creditors for specific purposes.

Fund Balance Reporting

Effective October 1, 2010, The District adopted the provisions of Governmental Accounting Board Statement No. 54 (GASB 54), which addresses fund balance reporting. The intention of GASB 54 is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides for two major types of fund balances, which are spendable and nonspendable. Nonspendable fund balances cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal of an endowment or trust funds.

In addition to the non-spendable fund balance, GASB 54 provides a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- **Restricted** Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed** Fund balances that contain self-imposed constraints of the government from its highest level of decision making authority.
- **Assigned** Fund balances that contain self-imposed constraints of the government to be used for a particular purpose. Assignments may be made only by the governing body or official.

• **Unassigned** – Fund balance of the general fund that is not constrained for any particular purpose.

Note 1 - Summary of significant accounting policies (continued)

For purposes of governmental fund reporting; the District has no fund balances classified as restricted. However, for purposes of the Statement of Government Net Assets, nonspendable endowments are presented as restricted.

Tax status

The District was granted 501(c)(3) status by the Internal Revenue Service and is not subject to Federal Income Taxes.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the financial statement date and the reported amounts of revenues and expenses or expenditures during the reporting period. Actual results could differ from those estimates.

Note 2 – Deposits and investments

At September 30, 2011, the District had the follo	owing deposits and investments:

Investment Policies and Risks

General Governmental and Internal Service Fund Investments

The District pools its general governmental and Internal Service Fund surplus funds for investment purposes and these investments are managed in accordance with an Investment Policy Statement (Statement). The Statement authorizes investments in the Florida PRIME, which is a 2a7-like pool administered by the Florida State Board of Administration, and similar Florida intergovernmental investment pools, such as Florida Safe, Securities and Exchange Commission registered money market funds, interest bearing time deposits, and direct obligations of the U.S. Treasury. Although the District's Statement does not address credit and interest rate risk, the limited nature of the authorized investments effectively minimizes any exposure. The District's pooled general governmental and Internal Service Fund cash equivalents and investments include the following at September 30, 2011:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Go	General overnmental	-	nternal Service Fund
Federated Government Obligations Fund	Money Market	AAAM	45 days	\$	921,757	\$	163,167

Bank Deposits					2,690,180		73,808
Total Bank Deposits and Investments				\$	20,017,226	\$3	3,140,989

Defined Contribution Pension Plan Investments

Participants in this Plan, including all District employees, self-direct investments from a variety of mutual funds offered through the ICMA Retirement Corporation. Accordingly, the District has not adopted an investment policy for this Plan. Defined Contribution Pension Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2011:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value
PIMCO High Yield Fund PIMCO Total Retum Fund Core Bond Index Fund Low Duration Bond Fund Total Fixed	Fixed Income Fixed Income Fixed Income Fixed Income	Not Rated Not Rated AA A	6.22 6.07 6.83 2.60	\$ 38,055 112,932 1,781,781 726,694 \$ 2,659,462
Plus Fund	Stable Value	AA	3.52	\$ 1,557,603
Cash Management Fund	Money Market	AAAm	24 days	\$ 14,741

Note 2 – Deposits and investments (continued)

Money Purchase Pension Plan Investments

Participants in this Plan self-direct investments from a variety of mutual funds offered through the ICMA Retirement Corporation. Accordingly, the District has not adopted an investment policy for this Plan. Money Purchase Pension Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2011:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value
PIMCO High Yield Fund PIMCO Total Return Fund Core Bond Index Fund Low Duration Bond Fund Total Fixed	Fixed Income Fixed Income Fixed Income Fixed Income	Not Rated Not Rated AA A	6.22 6.07 6.83 2.60	\$ 286 3,094 140,513 12,928 \$ 156,821
Plus Fund	Stable Value	AA	3.52	\$ 164,479
Cash Management Fund	Money Market	AAAm	24 days	\$ 5,868

Defined Benefit Pension Plan Investments

Investments in the Plan are managed in accordance with an Investment Policy Statement (Statement). This Statement sets the following guidelines: 40% for domestic equity securities, 25% for foreign equity securities and 35% for fixed income and cash securities. The Statement authorizes investments in domestic equities, mutual funds, stable value accounts, money market funds, corporate bonds, real estate investment trusts, exchange traded funds, commingled funds, and cash equivalent accounts.

The Statement states that the average credit quality of the fixed income portfolio shall be AA- or higher and the average rating of the mortgage portion of the portfolio must hold a credit rating of at least AA. As a means of limiting its exposure to interest rate risk, the Statement states that the average duration of the fixed income portfolio shall be less than 150% of the duration of the Barclays Capital aggregate Bond Index. Defined Benefit Pension Plan deposits and investments, other than mutual funds in equity securities, were as follows at September 30, 2011:

Note 2 – Deposits and investments (continued)

Fund/Investment	Туре	Average Credit Quality	Weighted Average Maturity (years)	Fair Value
Fidelity Institutional Domestic	Money Market	AAAm	55 days	\$ 249,329

OPEB Retirement Health Benefit Plan Investments

Investments in the Plan are managed in accordance with an Investment Policy Statement (Statement). The Statement sets the following guidelines: 70% for domestic and foreign equity securities and 30% for fixed income and cash securities. The Statement authorizes investments in domestic and foreign equities, mutual funds, stable value accounts, corporate bonds, real estate investments trusts, exchange traded funds, comingled funds, and cash equivalents. The Plan is completely funded by the District. The OPEB Retirement Health Benefit Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2011.

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	F	air Value
Core Bond Index Fund Low Duration Bond Fund	Fixed Income Fixed Income	AA A	6.83 2.60	\$	993,493 611,072 1,604,565

Due to the nature of the District's investments, there is no exposure to custodial credit risk, concentration of credit risk or foreign currency risk.

Note 3 – Capital assets

Capital asset activity for the year ended September 30, 2011, was as follows:

	Balances Oct. 01, 2010		Increases		Decreases		S	Balances ept. 30, 2011

Note 4 - Long-term debt

Long-term debt consists of the following at September 30, 2011:

Accrued compensated absences- due within one year	\$ 788,530
Total long-term debt- due within on year	 788,530
Accrued compensated absences- due beyond one year	481,945
Net pension obligation- due beyond one year	66,212
Total long-term debt- due beyond one year	548,157
Total long-term debt	\$ 1,336,687

A summary of changes in long-term debt, other than changes related to the net pension obligation discussed in note 7, is as follows:

	Balance October 1, 2010	A	Additions Deletions		Balance otember 30, 2011	Due Within ne Year	
Accrued compensated absences	\$ 1,251,918	\$	652,759	\$	634,202	\$ 1,270,475	\$ 788,530

The General Fund liquidates accrued compensated absences.

Note 5 – Interfund Balances and Transfers

The balance of \$62,388 due from the OPEB Fund to the Internal Service Fund represents a short term liability for health insurance premiums for retirees.

The \$9,602 residual balance left in the Branch Debt Service Fund after the debt had been fully paid off was transferred to the General Fund.

Note 6 – Commitments

Leasing arrangements

The District leases various facilities for branch libraries which are accounted for as operating leases and expire over the next ten years. These leases include various renewal options. The District also contracts annually to lease books and other materials.

The following is a schedule by year of minimum future rentals on noncancellable operating lease agreements as of September 30, 2011:

Year Ending September 30,	
2012	\$ 1,023,932
2013	951,988
2014	794,717
2015	662,416
2016	629,789
2017-2021	 1,510,504
Total minimum future rentals	\$ 5,573,346

Total lease expenditures for the year ended September 30, 2011 were \$1,718,054, of which \$1,021,912 was for facilities and \$696,142 was for books and other materials leasing.

Note 7 - Pension plans

Defined Benefit Pension Plan

<u>Plan description</u> - The District administers a single employer, defined benefit pension plan (Defined Benefit Pension Plan for Employees of the Orange County Library District) (the Plan) covering fulltime employees hired on or prior to December 31, 2006. Eligibility for vesting begins on date of hire, whereas benefit accrual begins after one year of service. Plan provisions and contribution requirements are established and outlined in the Plan document, which may be amended by the District's Board of Trustees. Separate, stand-alone financial statements for the Plan are not prepared.

At January 1, 2011, the date of the latest actuarial valuation, Plan participation consisted of:	
Retirees and beneficiaries receiving benefits	108
Terminated employees entitled to benefits but not yet receiving them	52
Current active employees	145
Total Plan Participants	305

<u>Funding Policy and Contributions</u> - The District is obligated by the Plan document to make periodic contributions, which are recognized in the period that they are due and the employer has made a final commitment to provide the contributions. The required contributions are actuarially determined and include normal costs. Employer contribution rates are determined using the frozen entry age actuarial cost method.

The Annual Required Contribution (ARC) is calculated as the normal cost plus the amount necessary to fully amortize the unfunded frozen actuarial liability by January 1, 2020, amounting to \$891,426 or 15% of covered payroll for the year ending September 30, 2011. Employees do not make contributions to the plan. The schedule of Employer Contributions, presented as required supplementary information following the notes to the financial statements, presents multi-year information about the contributions made by the District for the last six years.

<u>Annual Pension Cost and Net Pension Obligation</u> - The following table shows the components of the Plan's annual cost, the amount actually contributed, and the changes in the Net Pension Obligation as of September 30, 2011.

Annual Required Contribution (ARC)	\$ 891,426
Interest on Net Pension Obligation	16,500
Adjustment to ARC	 (20,679)
Annual Pension Cost	887,247
Contributions Made	 1,056,751
Decrease in Net Pension Obligation	(169,504)
Net Pension Obligation - Beginning of Year	 235,716
Net Pension Obligation - End of Year	\$ 66,212

Note 7 - Pension plans (continued)

The net pension obligation of \$66,212 is presented as a liability on the District's entity-wide financial statements.

Fiscal Year Ending	Pension Cost (APC)		of APC Contributed	 Net Pension Obligation
9/30/2009	\$	1,847,611	65%	\$ 447,997
9/30/2010	\$	1,220,118	117%	\$ 235,716
9/30/2011	\$	887,247	119%	\$ 66,212

<u>Payment of benefits and refunds</u> – Benefits and refunds paid to participants are recorded when due and payable in accordance with the terms of the Plan document.

Administrative costs – Administrative expenses are financed through investment earnings.

<u>Funded status and funding progress</u> – The most recent actuarial report for the Plan was prepared as of January 1, 2011. As of this point in time, the actuarial accrued liability for benefits was \$34,284,782 and the actuarial value of investments was \$33,695,627, resulting in an unfunded actuarial accrued liability of \$589,155 and a funded ratio of 98%. The annual covered payroll was \$6,104,311 and the ratio of the unfunded actuarial accrued liability to the covered payroll was 10%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Note 7 - Pension plans (continued)

<u>Actuarial methods and assumptions</u> – The following is a summary of actuarial methods and assumptions used in the latest actuarial valuation.

Valuation date	January 1, 2011

Amortization period	10 years
Asset valuation method	Market value
Actuarial assumptions: Investment rate of return Projected salary increases Inflation rate Cost of living adjustments Mortality table	7.0% 5.0% 0.0% 2.0% per annum 1994 Group Annuity Mortality Table

Defined Contribution Pension Plan

<u>Plan description</u> - The District administers a single employer, defined contribution pension plan ((Defined Contribution Plan and Trust for Employees of Orange County Library District (as amended and restated effective January 1, 2002 with subsequent amendments thereto)) (the Defined Contribution Plan) in lieu of participation in Social Security. Plan provisions and contribution requirements are established and outlined in the Defined Contribution Plan document, which may be amended by the District's Board of Trustees. Separate, stand-alone financial statements for the Defined Contribution Plan are not prepared.

All employees are eligible to participate in the Defined Contribution Plan from date of hire. At September 30, 2011, there were 346 participants and the fair value of the Defined Contribution Plan investments was \$12,923,958.

<u>Contributions</u> - The District is obligated by the Defined Contribution Plan document to make contributions equal to seven and one-half percent (7.5%) of the Annual Compensation of each member. For the year ended September 30, 2011, the District contributed \$916,574 to the Defined Contribution Plan. Such contributions from the District are recognized as revenue by the Defined Contribution Plan when due and the employer has made a final commitment to provide the contributions. The amounts credited to the accounts of employees shall be 100% vested at all times.

Note 7 - Pension plans (continued)

<u>Payment of benefits</u> – Benefits paid to participants are recorded when due and payable in accordance with the terms of the Defined Contribution Plan document.

Administrative costs – Administrative costs are financed through investment earnings.

Money Purchase Pension Plan

<u>Plan description</u> – The District administers a single employer defined contribution plan (Money Purchase Plan and Trust for Employees of the Orange County Library District) (the Money Purchase Plan) for full time employees hired on or after January 1, 2007. In addition to new hires, existing participants in the District's Defined Benefit Pension Plan were given a one time opportunity to freeze their benefits in that plan and begin participating in the Money Purchase Plan. Sixty-six participants in the Defined Benefit Pension Plan made this election in May 2007.

Plan provisions and contribution requirements are established and outlined in the Money Purchase Plan document, which may be amended by the District's Board of Trustees. Separate, stand-alone financial statements for the Money Purchase Plan are not prepared.

Employees are eligible to participate in the Money Purchase Plan from date of hire. At September 30, 2011, there were 90 participants and the fair value of the Money Purchase Plan investments was \$1,579,094.

<u>Contributions</u> – The District is obligated by the Money Purchase Plan document to make contributions equal to nine percent (9%) of Annual Compensation of each member. For the year ended September 30, 2011, the District contributed \$351,358 to the Money Purchase Plan. Such contributions from the District are recognized as revenue by the Money Purchase Plan when due and when the employer has made a final commitment to provide contributions. Participants become fully vested in the District's contributions after one year from date of hire.

<u>Payment of benefits</u>- Benefits paid to participants are recorded when due and payable in accordance with the terms of the Money Purchase Plan document.

Administrative costs - Administrative costs are financed through investment earnings.

Note 8 – Other Postemployment Benefit Plan

<u>Plan Description</u> – The District administers a single-employer defined benefit other postemployment benefit plan (OPEB Plan) and can amend the benefit provisions. In accordance with its Employee Handbook and Collective Bargaining Agreement (CBA), the District provides health care insurance coverage and a limited life insurance benefit to those employees who retire under the terms of the District's Defined Benefit Pension Plan on or after attaining age 55 with at least 10 years of service.

In accordance with State Law, all retiring employees must be provided access to the District's group health insurance coverage. For non CBA retirees hired prior to January 1, 2007, the District pays the entire cost of this coverage. Non CBA retirees hired after this date pay the full cost of the coverage should they elect this benefit. For CBA retirees hired prior to December 10, 2004, the District pays a fixed reimbursement with the balance of the cost of the District's group coverage being paid by the retiree. CBA retirees who retired before October 10, 2008 also have the option of obtaining independent health coverage and receiving the fixed reimbursement. Dependents of retirees may be covered at the retirees' option the same as dependents of active employees (retirees pay the full cost).

Non CBA retirees are eligible to participate in the District's dental plan just like current employees. There is no additional subsidy towards the dental insurance for retirees of the CBA and they would be required to pay the entire premium (\$28 per month) should they elect this benefit.

\$1,000 of life insurance is provided to all retirees.

As of the January 1, 2011 Actuarial Report, which is the most recent actuarial valuation, 216 employees were participants in the OPEB Plan and 101 retirees were receiving benefits.

In March 2007, the District established a qualifying trust and began funding its OPEB Plan obligation. Separate stand-alone financial statements for the trust are not prepared.

<u>Funding Policy</u> - The District has the authority to establish and amend the funding policy for its OPEB Plan. For the year ended September 30, 2011, the District contributed \$1,469,302, which was the annual required contribution per the January 1, 2011 Actuarial Report for the OPEB Plan. It is the District's intent to base future contributions on the ARC in subsequent annual actuarial reports.

<u>Contributions</u> - OPEB Plan member contributions are recognized in the period that they are due. Employer contributions to the OPEB Plan are recognized as revenue when due and the employer has made a final commitment to provide the contributions. The Schedule of Employer Contributions, presented as required supplementary information following the notes to the financial statements, presents multi-year information about the contributions made by the District for the last five years.

If CBA retirees elect to participate in the District's group health insurance coverage, they are responsible for paying the difference between the cost of this coverage (\$637 per month) and the fixed reimbursement, which varies depending on the retirement date. All retirees are responsible for contributing the entire cost of any dependent coverage.

Note 8 – Other Postemployment Benefit Plan (continued)

<u>Annual OPEB Plan Cost and Net OPEB Obligation</u> - The cost of the District's OPEB Plan is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of Governmental Accounting Standards Board Statement Number 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liability over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB Plan cost for the year, the amount actually contributed, and the changes in the District's net OPEB Plan obligation as of September 30, 2011.

Annual required contribution	\$ 1,469,302
Interest on net OPEB obligation	-
Adjustment to annual required contribution	 -
Annual OPEB Cost (expense)	1,469,302
Contributions Made	 1,469,302
Increase in net OPEB obligation	 -
Net OPEB obligation - Beginning of year	-
Net OPEB obligation - End of year	\$ -

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net Pension Obligation
9/30/2009	\$1,124,658	100%	\$0
9/30/2010 9/30/2011	\$1,392,656 \$1,469,302	100% 100%	\$0 \$0

<u>Payment of Benefits and Refunds</u> - Benefits and refunds paid to participants are recorded when due and payable in accordance with terms of the OPEB Plan.

<u>Funded status and funding progress</u> - The most recent actuarial report for the District's OPEB Plan was prepared as of January 1, 2011. As of this point in time, the actuarial accrued liability for benefits was \$13,104,739 and the actuarial value of investments was \$5,310,458 resulting in an unfunded actuarial accrued liability of \$7,794,281. The annual covered payroll was \$9,257,137 and the ratio of the unfunded actuarial accrued liability to covered payroll was 84%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates

Note 8 – Other Postemployment Benefit Plan (continued)

are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of shortterm volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the longterm perspective of the calculations.

Valuation Date	January 1, 2011
Actuarial cost method	Individual Entry Age Normal Cost Method
Amortization method	Level percent of payroll, closed period

Note 9 – Risk Management

The District became self-insured for employee health insurance, effective January 1, 2007. As permitted by GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, the District accounts for its self-insured assets, liabilities, net assets and activities in an internal service fund.

The District's health internal service fund covered claims up to \$150,000 per individual. The District purchased excess stop loss coverage on an individual basis where individual claims exceeded the \$150,000 limit.

The claims liability of \$94,288 reported in the Internal Service Fund is the actuarially determined undiscounted amount. The estimated liability is based upon actual claims that have been submitted as well as actuarially determined claims incurred but not reported. Changes to the claims liability since the year ended September 30, 2009 are as follows:

Fiscal Year Ended	Balance October 1		Additions Claim Payments				Balance otember 30
9/30/2010	\$ 98,172	\$	1,738,211	\$	(1,730,547)	\$	105,836
9/30/2011	\$ 105,836	\$	1,553,680	\$	(1,565,228)	\$	94,288

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. In fiscal year 2011, the District contracted with various companies for insurance coverage. The companies provided coverage for workers compensation, property, liability, flood, public officials, fiduciary (pension), and employment practices. Settlements have not exceeded insurance coverage for each of the past three years.

Note 10 – Property Taxes

Under Florida law, the assessment of all properties and the collections of all property taxes are provided by Orange County's Property Appraiser and Tax Collector, who are elected officials. Ad valorem property taxes levied in September 2011 are for the purpose of financing the budget of the 2012 fiscal year. Property tax revenues recognized for the 2011 fiscal year were levied in September 2010.

The State legislative act, which established the District, permits the District to levy taxes up to 1 mill of assessed valuation for operating. The District's Governing Board establishes the tax levy for the District, which included a Millage rate levied of .3748 mills for operating for the fiscal year ended September 30, 2011.

Note 10 – Property Taxes (continued)

Key dates in the property tax cycle for revenues recognized in fiscal year 2011 include the following:

Lien date	January 1, 2010
Property taxes levied	September 20, 2010
Beginning of fiscal year for which taxes have been levied	October 1, 2010
Tax bills rendered	November 1, 2010
Property taxes payable:	
Maximum discount (latest date)	November 30, 2010
Delinquent	April 1, 2011
Tax certificates sold on unpaid taxes	May 31, 2011

STATISTICAL SECTION

STATISTICAL SECTION

The Statistical Section of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and the required supplementary information says about the District's overall financial health.

Contents	Pages
Financial Trends	52 - 56
These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	
Revenue Capacity	57 - 60
These schedules contain information to help the reader assess the factors affecting the District's ability to generate property taxes.	
Debt Capacity	61 - 65
These schedules present information to help the reader assess the affordability of the District's current levels of debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	66 - 67
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	68 - 70
These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

COMPLIANCE SECTION

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Orange County Library Board of Trustees Orange County Library District Orlando, Florida

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Orange County Library District (the "District"), a component unit of Orange County, Florida as of and for the year ended September 30, 2011, which collectively comprise the District's basic financial statements, and have issued our report dated December 29, 2011. We also have audited the financial statements of the internal service fund, presented in the District's basic financial statements, and each of the fiduciary funds of the District, presented as supplementary information in the accompanying combining financial statements, as of and for the year ended September 30, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and other matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported herein under *Government Auditing Standards*.

Pursuant to Chapter 119, Florida Statutes, this report is a public record and its distribution is not limited. However, this report is intended solely for the information and use of the Board of Trustees, management, the Florida Auditor General, and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on the Major Program and on Internal Control over Compliance in Accordance with the State Single Audit Act

Orange County Library Board of Trustees Orange County Library District Orlando, Florida

Compliance

We have audited the compliance of the Orange County Library District (the "District") with the types of compliance requirements described in the State of Florida Department of Financial Services' State Projects Compliance Supplement that could have a direct and material effect on the major state financial assistance project for the year ended September 30, 2011. The District's major state financial assistance project is identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major state financial assistance project is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, *Rules of the Auditor General*. Those standards and Chapter 10.550, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on its major state financial assistance project for the year ended September 30, 2011.

Internal Control over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to state financial assistance projects. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major state financial assistance project to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state financial assistance project on a timely basis.

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state financial assistance project will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Pursuant to Chapter 119, Florida Statutes, this report is a public record and its distribution is not limited. However, this report is intended solely for the information and use of the Board of Trustees, management, the Florida Auditor General, and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Note: The Schedule of State Financial Assistance is presented on the modified accrual basis of accounting.

Independent Auditors' Management Letter

To the Members of the Orange County Board of Trustees Orange County Library District:

We have audited the financial statements of the Orange County Library District (the "District"), as of and for the year ended September 30, 2011, and have issued our report thereon dated December 29, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the Florida Single Audit Act. We have issued our Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters, Independent Auditor's Report on Compliance with Requirements Applicable to each State Project and Internal Control over Compliance, and Schedule of Findings and Questioned Costs. Disclosures in those reports and schedule, which are dated December 29, 2011, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.550, *Rules of the Auditor General*, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditors' reports or schedule.

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report. No recommendations were made in the preceding annual financial audit report.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires our audit to include a review of the provisions of Section 218.415, *Florida Statutes*, regarding the investment of public funds. In connection with our audit of the financial statements of the District, nothing came to our attention that would cause us to believe that the District was in noncompliance with Section 218.415 regarding the investment of public funds.

Section 10.554(1)(i)3., *Rules of the Auditor General,* requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)4., *Rules of the Auditor General,* requires that we address violations of provisions of contracts and grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with out audit, we did not have any such findings.

Section 10.554(1)(i)5., *Rules of the Auditor General*, provides that the auditor may, based on professional judgment, report the following matters that have an inconsequential effect on the financial statements, considering both quantitative and qualitative factors: (1) violations of provisions of contracts or grant agreements, fraud, illegal acts, or abuse, and (2) control deficiencies that are not significant deficiencies. In connection with our audit, we did not have any such findings.

Section 10.554(1)(i)6., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The District was established by special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980, as an independent special district. The original act, as amended, was recodified into Chapter 99-486, Laws of Florida. There are no component units of the District.

Section 10.554(1)(i)7.a., *Rules of the Auditor General*, requires a statement be included as to whether or not the District has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and identification of the specific conditions met. In connection with our audit, nothing came to our attention that would cause us to believe that the District met any of the specified conditions of a financial emergency contained in Section 218.503(1).

Section 10.554(1)(i)7.b., *Rules of the Auditor General*, requires that we determine whether or not the annual financial report for the District for the fiscal year ended September 30, 2011, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), *Florida Statutes*, is in agreement with the annual financial audit report for the current period. In connection with our audit, the results of our tests indicate that the annual financial audit report for the year ended September 30, 2011, filed with the Department of Financial Services, is in agreement with the annual financial audit report for the year ended September 30, 2011, filed with the Department of Financial Services, is in agreement with the annual financial audit report for the year ended September 30, 2011, filed with the Department of Financial Services, is in agreement with the annual financial audit report for the current audit period.

Pursuant to Sections 10.554(1)(i)7.c. and 10.556(7), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. However, this letter is intended solely for the information and use of the Board of Trustees, management and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.
